Prakash Mohan

Managing Director

Mindset Software Technologies

Via Email

Dear Prakash

Thank you for informing us of the potential risks within our video casting product. Your detailed research and analysis turned out to be instrumental in assisting D2L Developers and Engineers in reproducing and resolving these findings in hours.

The fight to keep technology services safe and secure is a daunting directive and is made all the easier as a community. Working with Mindset Software Technologies has been a delight and we are looking forward to our partnership in continuing the realization of this mandate.

Kind Regards
