

July 2020

In the daily tasks of updating and maintaining systems there is always a possibility that something may escape your view, so it is always good to have someone else who can look from another angle and thus give you a hand.

Thank you very much **Mindset Software Team** to indicate the problem on our website to take action and prevent further problems.

The Internet is a wonderful and dangerous world at the same time and it is always a benefit to have a team like yours to alert about possible dangers and prevent further problems.

Again our thanks to your collaboration.

Sincerely

Manuel Kissoyan
